

A woman with dark hair tied back, wearing a dark grey t-shirt and a colorful wristband, is shown in profile from the chest up. She is looking intently at a laptop screen. The screen displays a complex software interface with various panels, buttons, and data fields. The background is a blurred office setting.

Velocity Global

GLOBAL WORK PLATFORM™

**YOUR WORKFORCE.
ONE PLATFORM.**

Your distributed
team at the click
of a button.

“

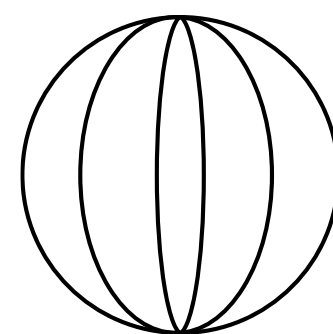

The system is very easy to use and it's very simple to initiate the process of engaging a new worker.

HR Operations

Mobile Technology Company

Workforce management made easy

Workforce management does not need to be complex. With Velocity Global's cloud-based technology you get a one-stop shop to hire, manage, and pay your global distributed workforce—no matter where they are. Engage talent in all 185+ countries with a single login, automate management of critical employment information—including timekeeping, payroll, and benefits—and get help from dedicated global employment experts whenever you need support.

Use our technology platform to:

- **Accelerate onboarding.** Get talent up and running in as little as 48 hours with our automated process.
- **Consolidate time management.** Rely on one source of data to manage time tracking and time-off requests.
- **Pay all types of talent.** Manage and pay everyone—from freelancers to full-time employees.
- **Streamline invoicing and payments.** Gain efficiencies by turning to a single source of truth for invoicing.
- **Integrate system and platforms.** Easily pull important data from your internal systems into our technology platform with our Integration Framework.

Everything you need in one place

Oversee your entire global workforce, learn about local labor laws and regulations using our country knowledge center, and provide your talent with mobile and desktop access to our technology platform.

Find out more about managing your global team—seamlessly.
